Subject: Important Information Regarding Michigan's Firearm Safe Storage Law

Dear Redford Union Families,

At Redford Union Schools, the safety of our students is always our number one priority. We believe that keeping children safe is a shared responsibility between our schools, families, and community.

We are reaching out to share important information regarding Michigan's firearm safe storage law and to remind families of the importance of securing firearms in their homes.

Michigan law requires firearms to be securely stored when minors are present or are reasonably expected to be present. Under the law, unattended firearms must be stored in a locked container or unloaded and secured with a locking device that prevents their use.

We encourage all families who have firearms in their homes to follow these important safety practices:

- Keep firearms unloaded and securely locked.
- Store ammunition separately from firearms.
- Make sure children cannot access keys or combinations to firearm storage devices.
- Remind children that if they ever encounter a firearm, they should not touch it and should immediately notify a trusted adult.

These simple precautions can make a significant difference in preventing accidents and keeping our children safe.

We recognize that every family is different, and our purpose in sharing this information is to promote awareness, encourage responsible firearm storage, and support the safety of all students.

More information can be found on the homepage of our district website at www.redfordu.k12.mi.us or directly from the [Michigan Department of Education](http://www.michigan.gov/education).

Thank you for your continued partnership and commitment to keeping our Redford Union students safe.

Sincerely,

Judy Nachman
Interim Superintendent
Redford Union Schools
