

PANTHER POST

Staff Highlight: Dina Chapman

Dina Chapman, Dean of Students at Beech Elementary, exemplifies what being a Panther staff member means. In her role, Ms. Chapman ensures students, families and staff members all feel emotionally and physically safe to share their concerns or needs. Working with the entire student community, Ms. Chapman believes it is important to be present, model the behavior students should come to school with and to hold people accountable in a safe and responsible manner.

Creating an inclusive and safe environment for students to come to school each day is key to their academic and personal development. Through Ms. Chapman's efforts, students are encouraged to have a voice and know who they can speak to if they are feeling anxious. Most of all, Ms. Chapman's top priority is to make sure students understand that she cares for them.

Thank you, Ms. Chapman, for being dedicated to our students mental and physical well-being!
